

What Our Members Say:

“I value being a member of such a special community of healers. I continue to be informed, educated and inspired via my membership.”

“The tele-chats are a great way to learn and to review.”

“A great opportunity to network with some of the best Imagery practitioners in the world.”

“Fabulous!”

“I love having access to so much wisdom through the listserv and tele-chats!”

“The newsletter is chock full of timely information that is relative to my work as a practitioner.”

“The tele-chats are uplifting and useful.”

“For me, I especially value the opportunities Imagery International offers to learn from the experiences of others as I continue to develop my Imagery guiding skills.”

“This weekend retreat has been nourishing and replenishing. Whenever I get together with people who practice imagery I always feel inspired and uplifted and more confident in the process and my ability to practice it.”

Imagery International

We are a professional association of healing practitioners from many different fields including nursing, medicine, psychology, counseling, bodywork, and other disciplines that use Imagery in their practices.

We value and promote the use of Imagery for health, healing and transformation. We also offer a community that encourages research informed training, skill-building, and professional networking to promote the efficacy of Imagery.

Benefits Include:

Newsletter: ImagiNews provides information on various aspects of Imagery work pertinent to professionals in the field. Regular columns include: *Research Corner*, *Imagery at the End of Life*, *Dear Curious* (members' answers to issues in Imagery) and *Imagery Here & There*.

Networking: Opportunities abound at the regional level through workshops and meetings, as well as through the website list of professional members.

Tele-chats: Workshops via conference calls address various aspects of Imagery. Past topics include: *Marketing: Best Practices; Using Imagery with Marginalized Populations;* and *Imagery and Surgical Prep*.

Online Listserv: Ask a question and someone magically answers!

Skill-Building Gatherings: Spend time in a learning community with colleagues to discover new tools and hone your skills.

Podcasts: Available for learning at your convenience on such topics as: *Imagery & the Heart*—Martin Rossman, MD
Imagery on the Go—Margo Adair
Working with Challenging Clients—Jann Fredrickson, LICSW
