**Distilling the Magic from Dream Imagery**

[Tallulah Lyons, M.Ed.](#), has generously given us permission to post her PowerPoint slides for her talk, "Distilling the Magic from Dream Imagery," which she delivered at our 5th annual conference this past October. You can find it on our [video page](#).

**From the Podcast Archives: Leslie Davenport,  
MFT: Flying Solo (January 2010)**

While we recognize the many benefits of experiencing imagery with an imagery practitioner, not everyone lives in an area where trained guides are easily accessible. Some people are restricted due to financial issues, and others who could benefit may be home bound. Most people compromise by using a scripted imagery CD, which

eliminates the personally unique guidance that arises from within with an interactive style of imagery. This talk presents a successfully tested format that people can use on their own to access their personal healing imagery. It is also useful for clients who want to keep their imagery fresh and evolving between their appointments with a trained practitioner. This format can also be adapted to doing imagery work with a group.

## Call for Case Studies

We are increasing the clinical focus of *ImagiNews*, our quarterly journal. We invite you to submit your case studies, clinical applications, and articles on how you use imagery in your work to our *ImagiNews* editor, Bev Hollander, at [editor@imageryinternational.com](mailto:editor@imageryinternational.com).

[See submission guidelines here.](#)

## Natural Standard's Database

2013 Conference Attendees:

Our conference sponsor, [Natural Standard](#) has given each participant free access to their database for a limited time.

On January 8, you received an email from Imagery International with login information. The database is available to you through the end of the month.

"Natural Standard was founded by healthcare providers and researchers to provide high-quality, evidence-based information about complementary and alternative medicine including dietary supplements and integrative therapies. Grades reflect the level of available scientific data for or against the use of each therapy for a specific medical condition." –from Natural Standard's website.
