

Imagery International

Enlivening the Mind-Body-Imagery Connection

October 20-22, 2017

Vallombrosa
Retreat Center

Menlo Park, CA

Working with imagery is a life practice that takes many forms and is offered through many venues. This year Imagery International invites participants to build practical skills for self exploration and working with others through the dynamic mind-body-imagery connection!

There is a life-force
within your soul,
seek that life.
There is a gem in the mountain
of your body,
seek that mine.
O' traveller
if you are in search of that,
don't look outside,
look inside yourself
and seek that.
