

Imagery International Virtual Conference

Our 14th Annual
Conference

The Vast World of Imagery

October 21-23, 2022

- **Melting Mountains: Allowing the Imagery of the Unconscious Mind to Transform your Mind, Emotions and Possibilities**

Natalie Hill, MA

Our mysterious unconscious holds our unlimited potential ...as well as anchors holding us back. Accessing the normally hidden realm of the unconscious allows us to quickly, almost miraculously change whatever has been keeping us rigidly stuck and opens us up to realms of creativity and possibility not available in our stuck state.

- **Deep Knowing: Entering the Realm of Non-Ordinary Intelligence**

Kim Hermanson, PhD

Breakthroughs don't happen through effort. In this workshop, we will take a shamanic pilgrimage into the intelligent field to discover resources and possibilities that can't be revealed any other way. Ordinary humans have the ability to connect with a field of intelligence that lies beyond our thinking mind. We just haven't known how.

- **Visionary Kabbalah: Using the Western Mystical Path of Imagination to Heal Body, Mind and Soul**

Phyllis Kahaney, RMSW, PhD
and **Rachel Epstein, RL.Ac., JD**

Visionary Kabbalah, or Kabbalah of Light, is a branch of a Western mystical tradition of healing, passed down orally and experientially from teacher to student. In this introductory workshop, students learn a brief history of this unique mind-body method and how to apply it in daily life, to enhance their health and wellbeing

- **Imagery and Tarotpy as a Pathway to Guidance and Healing**

Lauren Z. Schneider, MFT

Pioneered in 1983, Tarotpy® integrates psychotherapy, hypnotherapy and dream work with the rich symbolic imagery of Tarot, Dream Cards, SoulCards, and other oracle decks. By using imagery, Tarotpy lays the unconscious on the table, stimulates imagination, and accesses inner wisdom for insight and creative problem solving. Please have a tarot or oracle deck on hand to participate in this activity.

- **Applications of Cross-Cultural Fairy Tale Imagery**

Jonathan Young, PhD

We are in a time of divisiveness while longing for community and connection. It is time to awaken our imagination for leaders who can inspire and motivate. We will explore leadership approaches that illuminate the unique gifts of imagery and tap us into the leader within, enhancing our personal and professional lives.

- **Uses of Imagery in Expressive Writing Therapy**

Anne Bach, LMFT

This workshop demonstrates using imagery to prompt writing for inner exploration and how to recognize the unconscious in the imagery of reflective writing. Activities include brief spontaneous writing activities with discussion of how writing in response to images opens awareness of the stirrings of the unconscious

- **Body As Timer: An Imagery Journey to the Moon**

Aureal Williams

In this session we will experience an intuitively guided imagery journey, and travel to the Moon for a direct experience of communication with Her about Her phases. Just as we connect with our domestic animals, or talk with houseplants, so too, our connection with cosmic bodies is interactive and bidirectional and can be accessed through intuitive guided imagery
