

# Imagery International

## SPREADING SEEDS OF IMAGERY AWARENESS

Are you a practitioner, teacher, or lover of imagery?

Do you seek to connect with those who utilize the rich resource of imagery as a pathway for growth, healing, and understanding of self and others?

Founded in 1995, Imagery International promotes the therapeutic benefits of imagery for healing and personal growth by spreading seeds of awareness about the gifts and power of imagery while creating community and offering tools for practitioners, teachers, and lovers of imagery worldwide.

Join like-minded individuals to share awareness of the benefits and diverse applications of guided imagery, interactive

imagery, creative visualization, dream imagery, deep imagery, active imagination, and other imagery modalities.

We offer an annual conference, a beautiful membership publication, regional meetings, educational and inspirational podcasts and videos, and your very own member profile page on our website to connect with other imagery lovers worldwide.

### Ways to get involved

- Sign up for **FREE** e-news delivered to your email inbox
- Explore our **website**, which includes many free valuable imagery resources
- Attend our **annual conference!** Or submit a proposal to be a conference presenter
- Get your complimentary copy of **ImagiNews**, our membership journal published three times a year
- Become a member
