

Imagery International Conference: The Vast World of Imagery

October 21-23, 2022 Virtual Conference

Conference Description: Imagery holds the power to transform emotionally, psychologically, physically, spiritually, and transpersonally. Join us for our 14th Annual Conference, virtually again this year, wherever you are in the world!

Educational Goals:

Our overall goals of this year's conference are to:

- Deepen our Imagery skills by offering therapeutic, complementary, integrative tools to empower ourselves and clients/patients.
- Expand our ways of knowing from the conscious, unconscious, intuitive, and spiritual dimensions.
- Explore modern and ancient wisdom practices to guide us in the current world's challenges.
- Gather at our virtual conference to create community, camaraderie and commitment to honoring and sharing cultural aspects, diversity, and the Power of Imagination with the world.

for each session**

Imagery International Virtual Conference October 21-23, 2022

Workshop Learning Objectives

Upon completion of this workshop the participants will be able to:

Melting Mountains: Allowing the Imagery of the Unconscious Mind to transform your mind, emotions and possibilities with Natalie Hill

1. Discover the Melting Mountains process.
2. Explore an internal image of a difficult situation in life, then witness the transformation of the image through the Melting Mountains process.
3. Identify at least 2 applications where we can use this process in real life.

Deep Knowing: Entering the Realm of Non-Ordinary Intelligence with Kim Hermanson

1. Examine metaphor as another way of knowing in every day life to affect change, individually and collectively.
2. Define the concept of Third Space.
3. Experience, through a guided imagery process, how metaphor connects us to the Divine and the "Intelligent Field."

Visionary Kabbalah: Using the Western Mystical Path of Imagery to Heal Body, Mind & Soul with Rachel Epstein and Phyllis Kahaney

1. Examine one Western mystical tradition, called the Visionary Kabbalah, for use in self and societal healing.
2. Experience 3 imagery exercises to address emotional distress and physical illness.
3. Create their own imagery exercises based on their own inner dictionary of images.

Imagery and Tarotpy as a Pathway to Guidance & Healing with Lauren Zelman Schneider

1. Name 3 underlying principles for using symbolic imagery for guidance and insight.
2. Experience the "Tarotpy Method" of selecting images for guidance into personal and unconscious material.
3. Explore 3 techniques for relating to images and gaining insight into its symbolism.

Imagery International Conference October 21-23, 2022

Workshop Learning Objectives (cont'd)

Applications of Cross-Cultural Fairy Tale Imagery with Jonathan Young

1. Detect the meaning of symbolism in cross-cultural stories.
2. Recognize plot patterns as unconscious scripts within a fairy tale.
3. Discuss applications in clinical practice for using images from stories.

Uses of Imagery in Expressive Writing Therapy with Anne Bach

1. Recognize the unconscious process in the imagery of reflective writing.
2. Discern how the inner life can be enriched through expressive writing.
3. Demonstrate at least 2 techniques useful in stimulating the imagination.

Body as Timer: An Imagery Journey to the Moon with Aureal Williams

1. Explore the 8 phases of the Moon and how they relate to the Human Growth and Development cycle.
2. Experience a Relaxation/Guided Imagery journey.
3. Integrate insights gained from the experiential journey into day-to-day life through group sharing.
